Contents

Number 1, Spring 1980

1 R. RIBIERO DOS SANTOS AND L. HUDSON: *Trypanosoma cruzi*: binding of parasite antigens to mammalian cell membranes

11 R. MOQBEL: Histopathological changes following primary, secondary and repeated infections of rats with *Strongyloides ratti*, with special reference to tissue eosinophils

29 K. WHALEY, P. H. SCHUR, W. R. MCCABE and S. RUDDY: Modulation of the alternative complement pathway in patients with Gram-negative bacteraemia

39 C. E. BENNETT, D. L. HUGHES and E. HARNESS: *Fasciola hepatica: changes in tegument during killing of adult flukes surgically transferred to sensitized rats*

57 K. M. HUDSON, ANGELA E. R. TAYLOR and B. J. ELCE: Antigenic changes in *Trypanosoma brucei* on transmission by tsetse fly

71 B. RAGER-ZISMAN and A. C. ALLISON: The role of the natural killer (NK) cells in resistance to herpes simplex virus 1 (HSV-1) infection

Number 2, Summer 1980

85 D. WAKELIN: *Genetic control of immunity to parasites. Infection with Trichinella spiralis* in inbred and congenic mice showing rapid and slow responses to infection

99 R. P. LEHNER and M. M. H. SEWELL: A study of the antigens produced by adult *Fasciola hepatica* maintained *in vitro*

111 I. LJUNGSTRÖM: Studies on the responsiveness of spleen cells to various polyclonal T and B cell activators during *Trichinella spiralis* infection

121 J. G. GUERRA-CACERES, A. D. M. BRYCESON, I. QUAKYI and C. F.

SPRY: Studies on the mechanisms of adverse reactions produced by diethylcarbamazine in patients with onchocerciasis — Mazzotti reaction

133 LEOKADIA GUSTOWSKA, E. J. RUITENBERG and ANNEKE ELGERSMA: Cellular reactions in tongue and gut in murine trichinellosis and their thymus-dependence

155 MAHSHID FAGHIHI SHIRAZI, MARY HOLMAN, K. M. HUDSON, G. G. B. KLAUS and R. J. TERRY: Complement (C3) levels and the effect of C3 depletion in infections of *Trypanosoma brucei* in mice

Number 3, Autumn 1980

163 R. L. SPOONER and C. D. G. BROWN: Bovine lymphocyte antigens (BoLA) of bovine lymphocytes and derived lymphoblastoid lines transformed by *Theileria parva* and *theileria annulata*

175 D. M. HAIG, GLORIA C. LIMA and I. MOTA: Antibody suppression in mice infected with *Nippostrongylus brasiliensis*

189 M. ELAINE ROSE, PATRICIA HESKETH and BRIDGET M. OGILVIE: Coccidiosis: localization of lymphoblasts in the infected small intestine

201 D. J. WRIGHT: Reaction following treatment of murine borreliosis and Schwartzman type reaction with borrelial sonicates

223 MONIQUE CAPRON, Y. CARLIER, H. NZEYIMANA, PAOLA MINOPRIO, F. SANTORO, B. SELLIN and A. CAPRON: *In vitro* study of immunological events in human and experimental schistosomiasis: relationships between cytotoxic antibodies and circulating Schistosoma antigens

Number 4, Winter 1980

237 THELMA C. FLETCHER, ANN WHITE and B. A. BALDO: Isolation of a phosphorylcholine-containing component from the turbot tapeworm, *Bothriocephalus scorpii* (Müller) and its reaction with C-reactive protein

249 D. WAKELIN and ANNE M. DONACHIE: Genetic control of immunity to parasites: adoptive transfer of immunity between inbred strains of

mice characterized by rapid and slow immune expulsion of *Trichinella spiralis*

261 KAETHE WILLMS and MARIE THERESE MERCHANT: The inflammatory reaction surrounding *Taenia solium* larvae in pig muscle: ultrastructural and light microscopic observations

277 ELSIE M. EUGUI and A. C. ALLISON: Differences in susceptibility of various mouse strains to haemoprotozoan infections: possible correlation with natural killer activity

293 JANET E. PLANT, A. A. GLYNN and M. V. VALTONEN: O-antigenic specificity of the protective supernatant factor from *Salmonella typhimurium* effective in *S. typhimurium*-infected mice

303 J. G. HOWARD, CHRISTINE HALE and W. LING CHAN-LIEW: Immunological regulation of experimental cutaneous leishmaniasis. 1. Immunogenetic aspects of susceptibility to *Leishmania tropica* in mice

315 Author index to Volume 2
